Benefits

- **Higher Scalability:** ICT takes months deploying massive solutions. SimbaNET modular approach to managed services makes it easy for enterprises to scale up or down depending on demand

- **Skills & Competencies:** We are technically equipped with skilled and specialized engineers in new and emerging technologies

- **Freeing up ICT staff:** Most IT departments are stretched thin. SimbaNET offers staff scalability on demand so that the organizations can dedicate their in-house experts to projects that will further their core objectives and promote innovation

- **24/7 availability:** With SimbaNET managed services, help is always available — days, nights, weekends or holidays — to support users

- **Compliance:** In addition to regular audits, we follow the global standards and best practices

- **Predictable monthly costs:** With SimbaNET managed services initiatives, organizations can break down their costs into fixed monthly payments, as opposed to the large capital expenditures that come with managing systems in-house

SimbaManage Approach

Assess

- Increasing Infrastructure complexities
- Diverse, Multi-Vendor environments
- Rapid technology evolution
- ICT Skill Shortage; rising cost of infra management

Objective

- Gain access to diverse & comprehensive tech expertise
- Share responsibilities and risks
- Ensure predictable Quality of Service
- Reduce CAPEX / OPEX
- Better flexibility and economy of scale

Outcome

- Financial feasibility
- Proven track record
- Comprehensive technology support
- Multi-Vendor SLA Management
- OEM agnostic mode
- Geographic reach

About SimbaNET

SimbaNET is a member of Wananchi Group - A Licensed East African Public Data Operator with both Regional and International presence providing high-speed data & Internet Services over Fiber, LTE/4G & VSAT.

We have been in business for over 10 years providing telecommunications services in Africa. Our direct footprints include Kenya, Tanzania, Uganda, Zambia, Malawi and UAE. However, through our partners, we offer services in other countries such as Rwanda, Burundi, SA, Mozambique, Nigeria, Ghana, South Sudan and DRC.

Our Connectivity Solutions includes MPLS, IPLC, DPLC and VSAT.

We're not just about networks, we can also supply voice, security, mobility and cloud services in a Managed Model - acting as the single point of responsibility and ownership for your complete ICT solution.
